Maximize driver potential and reduce business cost
-  **VEHICLE ACQUISITION & LEASING**
Build your fleet efficiently

OTHER OPPORTUNITIES TO REDUCE MAINTENANCE COSTS WITHOUT INCREASING DOWNTIME:

- Technology
- Commercial Insurance
- Uprfitting Services
- Racks & Equipment
- Remarketing
- Business Management

VEHICLE MANAGEMENT

Shift Gears From Reactive To Proactive

Holman can help you change from a “break and fix” maintenance mindset to a proactive “predict and prevent” approach. By making more informed decisions and treating vehicle management more strategically, you'll manage costs and minimize downtime more than ever.

DRIVER SERVICES

Manage Your Drivers To Manage Your Costs

Though driver behavior can be a difficult variable to control, making adjustments can yield a significant reduction when it comes to vehicle maintenance costs and downtime. We can help you gain visibility into your data at a driver-by-driver level so you can make adjustments to better manage personal use and vehicle wear and tear.

More Opportunities

Holman can help your fleet save on costs and reduce downtime throughout the entire fleet lifecycle. We provide real-time data and analytics to help you continuously evaluate what's happening across your fleet each day, so you can identify trends and implement adjustments to your operational efficiencies. With Holman as your partner, we'll help your business look at the fleet strategically, ensuring your investment is maximized.

Lower Costs By Leveraging Your Fleet's Data

Your fleet generates terabytes of valuable data. Holman has the expertise and technology solutions to help you work through it all so you can make important decisions. Leverage big data to uncover actionable insights that will help you reduce expenses, streamline processes, and provide a clear view of operations across your fleet.
